

Amendments to the Drawings

Please change reference numeral 14 on Figure 2, Sheet 2, to reference numeral 12. (See attached marked-up original sheet 2)

REMARKS

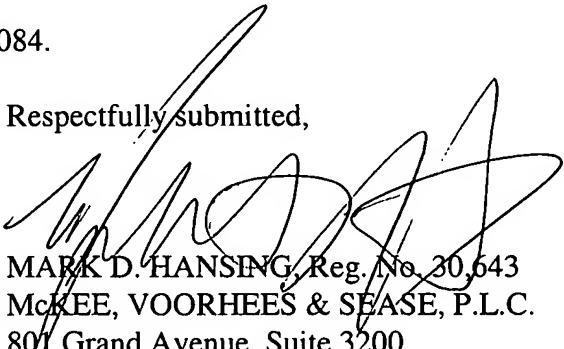

Applicant respectfully submits that the foregoing amendments to the specification and drawings of this amendment are merely corrections to formal matters and do not change the scope of the claims. They were just found in reviewing the disclosure prior to payment of the issued fee. In addition, these corrections require no substantial amount of additional work on the part of the PTO. They do not require additional search or examination. No new matter has been added and the claims remain allowable.

Specifically, minor obvious changes have been made to the Specification to correct obvious inadvertent errors or make identification of parts consistent.

The sole correction to the drawings is a correction of obvious inadvertent error, changing reference number 14 to number 12 in Figure 2 (see red-ink in attached "Annotated Marked-up Drawing").

No fees or extensions of time are believed to be due in connection with this amendment; however, consider this a request for any extension inadvertently omitted, and charge any additional fees to Deposit Account No. 26-0084.

Respectfully submitted,
